## Super Powder QAA

**DOB:** April 1, 1971

(Sire: NFC-NAFC Super Chief ex Dam: FC Marten's Black Powder Kate)

Owned By: Bill & Pam Bryant Breeder: James Doherty

**Super Powder's** litter was bred by James Doherty and was then owned by Bill and Pam Bryant. He was #5 on the 1973 Derby list with 35 points and became Qualified All-Age.

As a still unproven stud dog he was chosen to breed to Nakai Anny. Out of four breedings the pair had produced 1-NFC, 1-High Point Derby dog, and a total of 9 titled dogs. After the these litters, Super Powder was proven as a stud dog. His record as a sire totaled 36 FC'S, 2 NFC'S and 1 NAFC.

He was Qualified All-Age and somewhat casually trained, but Super Powder did not have a great trial record and was never titled. However, he was a top-notch stud dog and as a sire, he was in demand. History has shown his offspring were a good cross with Honcho lines. *(it is noted that he was reported to have bad hips)*
