

**2011**

Field Champion  
Amateur Field Champion  
**Trumarc's Hot Pursuit**

We got Percy at 7 weeks of age from a litter by NFC-AFC San Joaquin Honcho out of NFC-AFC Risky Business Ruby. There were two males in the litter and Ruby's owner Jeff Copeland told Judy that he kept the one that retrieved and gave her the good-looking one. It wasn't long until Percy showed that he was not only good looking but also loved to retrieve. He had more desire than any dog that Judy had the privilege of training.

Percy was an outstanding sire with 36 FC and or AFC titled offspring, including National Derby Champion and National Field Champion Vinwood's Takes A Lickin ("Timex".) Percy's field trial career included a Double Header with Ed at the helm. He had 21 Derby points, 63.5 Open points (8 wins,) 90 Amateur points (13 wins.) He qualified for five National Opens and six National Amateurs. He received a ribbon in 49% of all Amateur stakes and 35% of all Open stakes entered. *(Stats thanks to Sue Reynolds.)*

Becoming a house dog at three seemed to improve Percy's field performance. Despite his explosive attitude in the field, Percy would totally relax in the house. He was a delightful companion whose loving personality made him a favorite of everyone who knew him. He was a thrill to run, a thrill to train and a thrill to watch. Thanks Percy for making our life better.

~ Judy and Ed Aycock
